2. (U) EXERCISE: ELIGIBLE RECEIVER 97-1

3. () TASKS:

4. (U) TITLE: J-5 Exercise Involvement

5. (U) OBSERVATION: Opportunities for J-5 policy coordination, both within the Joint Staff (CAT, J-3 planning/execution cells, update briefings) and outside the Joint Staff (OSD, CSGs, NSC interagency meetings) did not exist; thus, the exercise did not benefit from J-5 policy inputs.

6. (U) DISCUSSION: This exercise was tailored to allow J-2 to gather intelligence and J-3/J-6 to determine tactical responses to cyberwar. There was no explicit role for J-5. The Major Scenario Event List (MSEL) did not require J-5 actions. Because of this focus, even an attempt by J-5 to explain policy implications of a larger-picture strategic attack by an outside nation or group of nations was dismissed as irrelevant to the exercise. As a consequence, only 4 officers from J-5 were extensively involved in the exercise, and only 4 others had any involvement at all.

7. (U) LESSON LEARNED: J-5 involvement must be planned into each exercise, and J-5 inputs must be considered by senior Joint Staff and DoD leaders during the exercise.

8. (U) RECOMMENDED ACTION: Incorporate J-5 officers into the established war planning organizational structure, such as a functional CAT team, the J-3 planning cells, CSGs and interagency groups, OSD policy meetings, and SecDef daily updates. Include J-5 MSELs into the exercise, such as DCs and PCs, crucial policy decisions that must be coordinated with the interagency, and policy briefings to the J-3.

9. (U) COMMENTS: J-5 involvement should include adding members to current war planning teams, and will require interagency acceptance of the J-5 role.

J-5 TASKING—10 JUN 97

The United States has experienced multiple electronic attacks on many power systems throughout the country (over a dozen during the last few days), as well as physical attacks on two satellite tracking sites (in Guam and Hawaii) that resulted in taking of four civilian hostages.

There is a strong possibility that this is a coordinated, multi-tiered attack on the U.S., and that this attack may involve Iran, North Korea, and Cuba.

Assuming we are able in the next few hours to link those countries with this attack, what does J-5 propose for response options with each country?

Need one slide covering:

- Political: xxxxxxxxxxxxxxxxxxxx
- Economic: yyyyyyyyyyyyyyyy
- Military: zzzzzzzzzzzzzzzzz
- Information Warfare: iiiiiiiiiiiiiiiiiii

Need one slide covering:

- Major Limitations (why some options may not work or be less effective)

If you have more info, perhaps one slide on “Next Steps”:

- Need info on:
- Need to coord with:
- Etc. (These are just examples)
